

MANCHESTER INFIRMARY

NUMBER XIX.

The REPORT
Of the PRESENT STATE of the PUBLICK
INFIRMARY and LUNATIC HOSPITAL
I N
M A N C H E S T E R,
From June the 24th, 1770, to June the 24th, 1771, exclusive.

UPON taking a View of the present State of this Charity, which it is our Duty to lay before the Public, we cannot help being struck with the Loss of many generous Benefactors to it, who have exchanged this Life for a better, since its first Institution; whose liberal Subscriptions not only contributed largely to its Support, but whose pious Pains were freely employed in the Conduct and Management of it, by which Means they became doubly instrumental in promoting its Success, and happily brought it to that height of Reputation in which we have the Pleasure to find it; a Reputation founded upon the firmest Basis, its extensive Usefulness to Society.

We cannot deplore the Loss of so many worthy Persons, without pointing out the Necessity which there is for those who are left behind, to Endeavour to supply their Place with others who may follow their good Example, By an Application, in the first Place, to such as have succeeded to their Estates and Fortunes, and to many others, who, we have the Satisfaction to find, by their Care and Industry, have raised themselves very considerably in the World, since this Charity was first founded; to many Strangers, likewise, who have happily fixt themselves, within a few Years past, in this thriving Town and Neighbourhood; who will all, we can make no doubt, upon a proper Application, cheerfully contribute to the Relief of the Sick Poor, upon whose Health, as well as Labour, the Success of Trade so greatly depends.

Whilst we press for Associates in this charitable Design, it may be proper to put them in Mind, that we not only find a considerable Deficiency in our Subscriptions, by the Death of many Annual Subscribers; but that the present high Price of Provisions has very largely added to our Expence, at a Time when the Number of distressed Objects, offering for Relief, has rather encreased, than diminished.

Among these we could wish none were recommended but such as are proper Objects of this Charity. The Apprentices of reputable Trademen, whose Masters are bound to provide for them, can never be considered in this light; and should such, as well as some others be refused Admittance, it is to be hoped their Recommenders, will not attribute this, as any slight put upon their Recommendations, but to the strict Regard which the Trustees, at their Weekly Boards, are obliged to pay to their printed Rules.

For the extensive Usefulness of this Charity we can only refer to our

annual Reports, wherein it will be found that upward of 23,000 of the Sick Poor, in this Town and Neighbourhood, have been cured or otherwise relieved within the compass of 19 Years past.

In the same Reports may be seen an exact Account of every particular Sum which has been received and disbursed, since the first Institution, for the Purposes of this Charity.

An early Payment of Subscriptions for the ensuing Year which commences upon the 24th Day of June, will be kindly accepted, and if our Subscribers will save our worthy Treasurer and Deputy Treasurers the Trouble of calling upon them for their Subscriptions, by sending them to the Weekly Board, or to their respective Houses, the Favour would be gratefully acknowledged.

In our Reports, for a few Years past, mention has been made of a Lunatic Hospital, which was erected in this Town in the Year 1765, and which owed its Rise to the same Spirit of Benevolence, which planned and executed this more extensive, tho' not more useful Undertaking, and a concise Account has been given of the Success with which it has been attended. But this last Year a more particular Account of its Rise, and present Establishment being required by many charitable Persons, who were sensible of its great Utility, their Desires have been complied with, and the small Pamphlet which contains it, may be had *Gratis* at our Infirmary, by those who please to call, or send, for it.

We conclude with the usual Notices, which we find necessary to be Annually given, viz. that first, no Subscriber's Recommendation of a Patient can be accepted, whilst his Subscription is in Arrear.

Secondly, Those who are disposed to bequeath any Legacy to the Charity, are desired to make use of the annexed Form. I give and bequeath unto A. B. and C. D. the Sum of upon Trust, that they pay the same to the Treasurer for the Time being, of a Society, who call themselves Trustees of the Public Infirmary in Manchester, which Sum of I desire may be paid out of my personal Estate, and applied towards the carrying on the good Designs of that Charity.

Thirdly, Such as please to contribute to the Lunatic Hospital, whether by Subscription, Benefaction, or Testamentary Bequest, are requested explicitly to notify their Intentions to the Treasurer of the Infirmary.

Fourthly, Old Linen will always be a most acceptable Benefaction, on Account of the constant Consumption of it in the Infirmary.

R E C E I P T S.
